EDUCATION

B.E.	Software Engineering, GPA: 3.95, Pokhara University, Nepal.	5 th Semester
	GPA: 4, Pokhara University, Nepal.	6 th Semester

RELEVANT UNDERGRADUATE COURSES:

C/C++	Java(Basics)	Artificial Intelligence
Agile Practices	Data Science and Machine	Cloud Practices(AWS)
Web Technology(HTML/CSS)	Learning	Designing(Figma)

EXPERIENCE

I am a motivated Software Engineering student with strong academic performance, project experience, and interest in design UI/UX, development, and practical problem solving. Eager to learn, contribute, and grow through real industry experience.

PROJECTS AND PRACTICES

- 1) Scam Aggregator
A platform where users can report scams and fraudulent activities they encounter.
Hackathon: MBMC (Madan Bhandari Memorial College) Ideax 2024 Hackathon
Link: <https://github.com/asthathapaa/scam.git>
- 2) Road-Way
A route optimization application developed by Team Aisle to efficiently manage and optimize traffic routes.
Hackathon: Noskathon-Lite
Link: <https://github.com/asthathapaa/Aisle.git>
- 3) WordGuessGame – TCP-based Word Guessing Game using Winsock
For coursework of Network Programming this project is a command-line word guessing game (similar to Hangman) using the C programming language and Winsock2 on Windows having Client and Server system running on ports.
